EXAMINATION GUIDELINES FOR HACKWITHINFY QUALIFIERS

SYSTEM REQUIREMENTS

Please ensure that the laptop/desktop computer you plan to use for taking the online test fulfills the following system requirements. Taking the test on a mobile or a tablet is not recommended.

- i3 Core processor or higher
- 4GB RAM
- Fully functional webcam. You can test your webcam at https://webcamtests.com/
- Google Chrome and Microsoft edge browser version 91 or above with disabled pop-up blocker. Taking the test on any other Web browser is not recommended.
- A stable Internet connection of a minimum 2 Mbps download and 2 Mbps upload speed
- Uninterrupted power supply for the duration of the tests.

INSTRUCTIONS

- Kindly ensure you are connected to a stable Internet connection from the time you log in till you complete the test. Recommended internet speed is 2 Mbps - 5 Mbps.
- The test will have 3 sections to be solved in the given time frame.
- Click here to check your system compatibility. You must check this in advance to avoid any last-minute issues.
- Use of mobile, smart watch, headphones, and other electronic gadgets during the test is prohibited.

GUIDELINES

- The login window will remain open for only 30 minutes, you must start the test within this time frame.
    - For example, if, as per the slot, the test is at 10 AM, then you must log in and start the test latest by 10:30 AM. If you miss the login window, you will not be able to take the test. Infosys does not consider any exemption in this regard
- You must not exit the test screen while taking the test. Any attempt to do so will be recorded.
- Use of online communication applications during the tests is strictly prohibited. Before you begin to take the test, ensure you close all programs and applications, including communication applications like Skype, Microsoft Teams, etc.

- Use of mobile phone for any reason other than mobile hotspot and tethering is prohibited and will lead to disqualification from the recruitment process.
- You may keep stationery items with you for taking the test. Use of calculators and similar devices is not allowed during the test.

LOCATION AND OTHER REQUIREMENTS

- Select a location where you can remain undisturbed for the entire duration of the test.
- The desk or the walls around you must not have any writing or pictures of people.
- The room should be as quiet as possible. Ensure there is no background noise such as music, television, people chatting.
- The lighting in the room must be bright enough to be considered 'daylight' quality. There should be adequate lighting on your face and it must be clearly visible. Overhead lighting is optimal. Ensure that the source of light is in front of you and not behind.
- Ensure you have a comfortable chair and are seated upright. Your face should be visible so that the webcam can detect and capture snapshots frequently. Partial face visibility will be considered a violation of instructions for the test.
- Ensure that there are no people around you. If anyone else apart from you is detected in the video, you will be disqualified from HackWithInfy.

BEHAVIORAL GUIDELINES

The entire duration of the test is Web-proctored. You will be on video, and therefore, please ensure the following:

- You must dress as though you are in a public setting
- You must not use headphones, earphones, or any other type of external audio equipment
- You must not communicate with any other person by any means
- You must not leave the video frame during the exam for any reason.

EXAMINATION RULES

- HackWithInfy Qualifiers is an online Web-proctored test that will be conducted on the Infosys Wingspan Assessment Platform.
- This round is an online test that will assess your programming and other technical skills.
- You will receive the examination link and the one-time password at least 72 hours before the test. **You will have to reset the password at least one day before the test**. In case you enter the wrong password on the day of the test, you might get temporarily blocked. In that situation, clear the browser cache, refresh, and try again after some time with the correct new password.

- The test will contain three programming-based questions that will have to be answered within three hours.
- Each question will have a different weightage of marks and varying difficulty levels.
- You will have the option to choose from a list of common programming languages and submit your solution in a preferred language.
- All submissions for the online test will be evaluated by the judging panel on the following parameters:
    - Number of test cases where the code passes and code efficiency
    - Marks are assigned to the questions based on the difficulty levels and the solutions will be evaluated accordingly
    - Plagiarism is not encouraged and there shall be negative marking for plagiarism.

- Candidates who clear this round will move to Qualifier round 2 of HWI 2026 based on their performance in Qualifier round 1.

IMPORTANT NOTICE

If any malpractice or violation of instructions is detected during the test, the candidate's application will be canceled, and he/she will be debarred from HackWithInfy.

If you have any queries, please write to us at HackWithInfy@infosys.com
